THE LIVE SHOW

JONZENK's live set is rooted in storytelling. It moves through sharp beat switches and stripped piano moments, shifting from loud, distorted rock/rap beats, cinematic orchestral sections to quiet, intimate ballads. Rap and singing sit over layered production, with live improvisation on keys cutting through groovier sections. The delivery feels direct and personal, turning the performance into a near conversation and creating an intimate, exposed atmosphere.

Performance highlights:

- Festimel 2025 & 2026 - Reims, France (Festival)
- La Theory du KHAOS - Montreal, Canada (Festival)
- KHAOS COLORS 2025 - Montreal, Canada (Performance)
